

FLINTLEDGE ESTATES COMMUNITY ASSOCIATION
P.O. Box 1243
Rockville, Md. 20850

March 9, 2001

Ms. Patricia Bott:

We are in receipt of your letter dated February 16 of this year. You have asked for a response to your inquiry, in writing, and it follows.

First, Ms. Klompus, Association President, and I did in fact come to see the area you mention was damaged during sidewalk repair done years ago. We were unable to see a problem in this location and endeavored to do so quite carefully.

Patching of concrete cannot properly be done in winter months, nor would we go forward with the job in isolation. However, when the next scheduled sidewalk repair is scheduled, we will personally take the workers to the spot in question and request that it be evaluated and if needed, repaired, when other sidewalk maintenance is being done.

We hope this clearly answers your inquiry and appreciate the opportunity to clarify your questions.

Sincerely,

(Mrs.) Leslie B. Sklarew
Association Vice-President
