Ms. Patricia Bott
2467 McCormick Road
Rockville, MD 20850

Dear Ms. Bott:

Thank you for your letter received quite some time ago. My apologies for the very lengthy response time.

I have walked in front of your property several times with the express purpose of observing the sidewalk to which you referred. Both another board member and I were unable to discern any sidewalk area that appears damaged or in any way differs from other sidewalk areas within the townhouse sector. In fact, there are areas in the single-family home area (the City's responsibility) which are clearly in need of attention.

I am really unable at this time to see your area of concern, but if you wish to write or call to set up a time for two members to speak with you outside, we will be happy to do so.

Sincerely,

Leslie Sklarew
Architectural Control
