Re: Utility Box Located Between  
2471 and Carter Field

Dear Members of the Board:

I would like your assistance in trimming or removing the shrubbery planted around the utility box located partially on my property and partially on community property. Enclosed is my plat with the house number and utility box highlighted in yellow. The bushes are hideously, in my opinion, overgrown. I have done massive pruning, to the height of the utility box, at least three times in the thirteen years that I've lived here. Bill Messet has pruned, not trimmed, the shrub an estimated three times. The plant is very difficult to prune, and now that it has gotten so tall, it is beyond my reach. I am concerned about the Spruce (or whatever it is bush) not the Leland Cypress (tree).

Cliff Blondes recommended that I remind the Board of the existence of this community utility box and suggested that I communicate my feeling about the shrubbery to the Board.

Please consider the shrubbery around this utility box when you do your landscape budgeting. I will be willing to share the cost of removal and replanting. I can be reached at 301-279-9264, home, 301-654-9000, work, or NPS@RBLCPA.Com.

Thanks.

Yours truly,

Enclosure
